*Empowering every child, every day to create a better world*

---

March 20, 2020

Dear Enterprise Families;

In the wake of the COVID-19 crisis, the Enterprise Elementary School District (“District”) is taking all necessary precautions to prevent the spread of the virus. As you have heard, the District will be closing its schools, effective March 17, 2020. It is currently anticipated that schools will re-open on April 14, 2020. We know that school closure is concerning, and want to ensure you that we have your child’s education and safety as a priority. However, at this time, because the District is not providing any educational services during school closure, we wanted to inform you that the District will also not be providing special education during school closure.

As updates are made available to the District, we will continue to promptly update you. If schools will be closed longer than 10 school days, the decision about whether or not to provide some form of instruction may change.

When schools re-open and schools resume providing education, District staff will closely monitor your child’s skills and performance over that next month, to confirm whether or not there are any concerns with educational progress or regression. If there are any such concerns, District staff will notify you, and if necessary, will promptly convene an IEP meeting or 504 meeting to discuss your child’s needs.

If you have any questions, please direct them to Annie M. Payne, Director of Special Education and Health Services, and District 504 Coordinator at (530)224.4100 or [apayne@eesd.net](mailto:apayne@eesd.net)

Stay safe and take care!
